## Assembly Instructions

### Tool Required: Phillips Screwdriver

1. Open the Center Drawer (D) and remove the foam packaging. Remove the Tray (K) from the drawer and recycle the packaging. Return the Tray (K) to the drawer. See Figure 1.

2. There is a secret storage area in the Center Drawer (D). To access this storage, open the upper right Middle Drawer (E). Reach in until you find the Hinge (V) that is attached to the bottom of the Center Drawer (D). Pull the Hinge (V) forward and then pull the center drawer (D) out far enough so you can access the concealed storage space. To close the drawer, just push it shut. See Figure 2.

## Assembly Instructions

3. Place the chest at its final destination. Rotate the Small Adjustable Glides (N) on the bottoms of the legs and Assembled Foot (L) until the unit is level. See Figure 3.

Fig. 3

4. **Tipping restraint:** Locate two studs in the wall behind the unit. Attach a Clip (T1) to one wall stud with two #8 x 2" Black Screws (T3). See Figure 4a. Attach a second clip to the unit with two #8 x 1" Pan Head Screws (T4). See Figure 4b. Connect the two clips with the Nylon Restraint Strap (T2). Pull the Nylon Restraint Strap (T2) tight so there is no slack. See Figures 4c and 4d. Repeat this procedure to attach the second tipping restraint. If you cannot locate two studs, purchase the proper wall attachment hardware for your type of wall and secure the unit.
